(as preservative)  
Menthol ..... 0.02 mg  
Purified Water q.s. ad ..... 1 mL

**Product Description:**

Sodium Chloride (Snif®) 0.65% Spray Solution is a clear, colorless solution; free from foreign matter.

Sodium Chloride (Snif®) 2.3% Spray Solution is a clear, colorless solution; free from foreign matter.

**What is in the Medicine?**

Sodium Chloride (Snif®) 0.65% Spray Solution contains a balanced sodium chloride concentration that is almost similar to that of body fluids.

Sodium Chloride (Snif®) 2.3% Spray Solution contains a hypertonic sodium chloride solution that has a higher salt concentration than body fluids, which makes it stronger.

Sodium Chloride (Snif®) Nasal Spray Solution is a non-medicated relief for nasal congestion due to colds, allergies, rhinitis and sinusitis. It thins nasal mucus and moisturizes dry nasal passages, making it easier for the nasal and sinus tissues to clear.

**Strength of the Medicine:**

See Formulation.

**What is this Medicine used for?**

- For nasal discomfort and dryness
- Moisturizes and soothes the nasal passages. Also for dry and inflamed nasal membrane due to low humidity, pollution, cold, surgery and other conditions.
- For thick mucus and inspissated crusts.

**How much and how often should you use this Medicine?**

Apply 2-4 sprays in each nostril as often as needed or as directed by a doctor. May use a cotton bud to remove excess mucus. Use clean cloth to wipe the tip of the dropper after each use. Sodium Chloride (Snif®) can be used everyday by children, adults, and by pregnant or breastfeeding women.

**When should you not take this Medicine?**

If you are allergic to sodium chloride or to any ingredient in the product.

**Care that should be taken when taking this Medicine?**

Do not share this product with others because of the possible increased risk of infection.

Do not use after the expiry date on the label.

**Undesirable effects:**

This product does not contain any medication and can be used as often as needed without worry of any harmful side effects. However, if the inside of your nose is very dry and irritated, stinging may occur. This product may also induce transient sneezing.

**What other medicine or food should be avoided while taking this Medicine?**

Tell your doctor about other medicines you are taking, especially other medicines for cough, cold or allergy.

**What should you do when you miss a dose?**

Just apply the missed dose if still needed for the particular condition being treated and then continue with your regular dosing schedule.

**How should you keep this Medicine?**

Store at temperatures not exceeding 30°C. Protect from light. Keep the product out of reach of children.

**Signs and symptoms of overdose:**

There have been no reports of overdose with this product.

**What to do when you have taken more than the recommended dosage?**

If you have used more than the recommended dosage, consult a doctor.

**When should you consult a doctor?**

If your condition persists or worsens, consult a doctor.

**Directions for Use:**

While sitting or standing with the head slightly tilted, spray the solution into the nasal area until the desired effect is obtained.
